## The Missouri Bluebird Society

was founded March 12, 2006, in an effort to Enhance the various endeavors, made by groups and individuals across the state, to increase the population of our Eastern bluebird and other native cavity-nesting birds. The purpose of the organization is to attain pertinent information concerning bluebirds and native cavity-nesters, and provide this information to all interested parties across Missouri, encouraging them to provide proper housing and care for our bluebirds/ wild birds and to do this in association with the North American Bluebird Society. A State-wide Newsletter is one of the benefits of your membership, along with routine presentations on native birds.

**The promotion of managed bluebird trails, in a variety of adequate Environments, is a major focus of the Missouri Bluebird Society.**
